| | Positive Net Balance in the Average Net Income for twelve (12) months | 1,059,131.60 | 1,192,423.70 | | 61,303.86 | 5% | Average Net Income for the Year 2022 decreased by 95% due to the sudden very high increase in the price of Fuel, Oil and Gas as a result of extreme global demand. Expenses incurred for this Year 2022 had a percentage increase of 327% compared to the Year 2021 expenses. GMAWD obtained these very high increases in the expense of fuel because of the two (2) newly drilled wells located at Teachers Village (PS# 3) and Alta Tierra Homes (PS # 23) that have yet to be energized by MERALCO. Considering that, their first priority is the relocation of service lines affected by road widening. After one year and one month of waiting, Teachers Village PS # 3 was finally energized last January 31, 2023, while, Alta Tierra PS# 23 still uses fuel for its dally operation. Likewise, the surge in natural gas prices adversely affects the cost of electricity, the percentage of actual expenses for the Year 2022 against the Year 2021 is increased by 126%. Moreover, these circumstances were not beyond our control, which brought an adverse effect on Financial Statement, thus the Net Income for the Year 2022 decreased by 95% as compared to the Year 2021 performance. |
